GENERATIONS OF BEING

FIRST *in the* FIELD

AS THREE FAMILIES OF FARMERS OURSELVES,

we've been living and working in this region for generations. We've used our first-hand experience to provide top-quality, dependable corn, silage corn, and soybean seeds for more than 20 years. We plant and test them ourselves on our farms first to ensure you have seed you can count on for years to come.

BUILT FOR GENERATIONS

 **DIAMOND
DOORS**

Diamond Doors takes quality and longevity seriously. Our commitment to building a long lasting product is as important to us as it is to you. As a family company in the heart of the prairies, we understand that each investment into your farm needs to last a lifetime. The first door we ever built is still used regularly, and we continue to build doors that will last on your farm for generations.

Save \$1000s!
Roll your own fresh grain!

Econo Mill

Designed for small operators, acreage owners, and hobby producers who want to mill their own grain. The mill has a capacity of approximately 50 bu./hr. Built with the same quality features and craftsmanship as our standard Mills.

- Rolls are 6" wide and 8" in diameter.
- Requires 1.5 horsepower motor, 110/220 volts.
- Unit comes with hopper, motor mount, stand, magnet and drive pulley.

Portable PTO Drive Mills

- Available in 12", 16", 20", 24" and 30" roll sizes
- Capacities: 200 to 800 bu./hr.
 - Quick release rolls
- Easy removal for grooving
- Rolls peas and all grains

Electric Drive Mills

- Low operating cost
- Available in 4", 6", 8", 12", 16", 20", 24" & 30" roll sizes
- Capacities from 100 to 800 bu./hr.

NEW
\$289

**Tried & Tested
Dealers Wanted**

Grain Probe

- 8 ft. long • Sample 8 ft. of the bin with one probe
- Sufficient capacity for a testable sample
 - One probe gives test sample
 - Light and easy to handle
- Steel tubing • Delivery can be arranged
- Ladder hook for safety & ease of movement

Cow Catch - R

CATTLE HEADGATES

SAVE ON SMASHED KNUCKLES & BROKEN NEEDLES

Roller latch for easy release and discharge

Positive lock holds swing gates in position when animal is secured and by pass release system lets them swing to open position to release animal when done processing

Shock absorber mounting for animal comfort

No choke, Quick adjust catch bars for fast and easy adjustment for cattle ranging from 400 to 1600 pounds

After catching animal with the auto catch head gate the swing back gates behind the main head gate can be used to push back on the animals shoulders to pull head back against head gate, restricting the animals head and neck movement from side to side and back and forth, at the same time exposing the neck from head to shoulder. Making it safe and easy for neck injections, implanting, ear tagging, oral inspections, and medication applications

HARVEST SERVICES

Concaves

CONCAVES FOR ALL MAKES & MODELS

JD • CASE IH • NEW HOLLAND • etc.

Standard Features:

- Precision Bored
- Stronger – 1045 Steel
- More Steel Over the Wire
- Drilled Wire Holes – Not Punched

Harvest Concaves – built stronger precision bored.

Conventional Concaves

- FILLER PLATES
Filler plates hold the heads in place for proper threshing.
- SEPARATE
The rear of the concave is more open to allow better seed-straw separation.

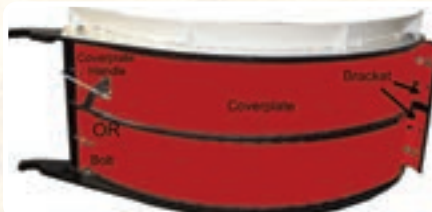

QUICK RELEASE HANDLE

Rotary Concaves

JD • CASE IH • NEW HOLLAND

- COVER PLATES
The cover plates ensure a more uniform distribution & better thrash.
- SPACING OPTIONS AVAILABLE
Narrow Wire, Wide Wire, Round Rod

Designed to thresh and separate.

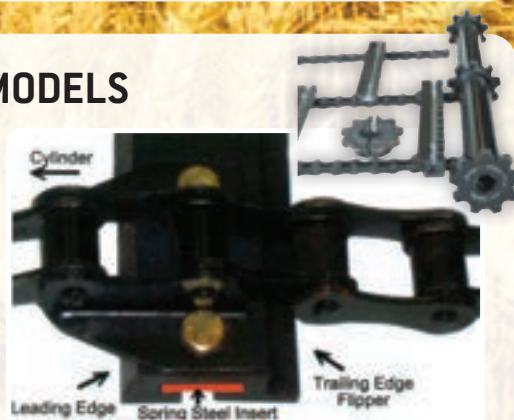

Feeder Chains FOR ALL MODELS

Standard Features:

- Heavy duty 557 chain
- Reinforced plastic slats
- Quiet & easier to drive
- Split sprockets available
- Improved feeding
- Flexibility with memory
- Less weight
- Feeder chain drive shaft for CIH

Harvest Services was the first company to manufacture feeder chains with super strong plastic slats. Harvest feeder chains start with Heavy 557 chain. This superior chain will outlast the original by hundreds of hours.

IMPROVED COMBINE PERFORMANCE

ADJUSTABLE PLASTIC LOUVERED SIEVE

Standard Features:

- Longer lasting
- Increased combine capacity
- Reduced shoe loss
- Cleaner sample
- Lighter than steel
- Individually replaceable louvers & pins
- No rust
- 40% lighter
- Indexed handle
- Minimizes icing... sappy weed buildup

Sieves & Chaffers

Also available fan throat kits for Case IH combines.

HARVEST AIR FOIL CHAFFER

- Equalized air pressure
- Better seed recovery
- For all crops and combines
- 40% Lighter

EQUALIZED AIR PRESSURE

WILKE SALES

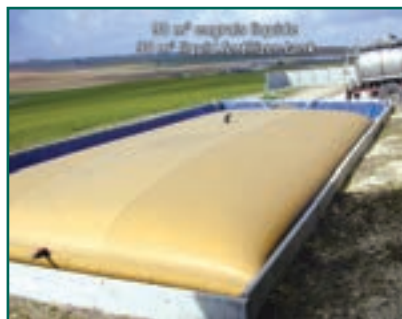

POLY WEARSHOE

- Designed to fit onto new or worn steel auger flighting.
- Typical applications: combines, grain carts, transport augers, grain bin augers and grain handling systems.

HOPPER AUGER LINER

- Available for all combines.

90,000 GALLONS FERTILIZER TANK

The low cost of the investment and the ease of installation make the flexible tank very cost effective per gallon of storage.

CONCAVE WINCH

- Winch adds ease to lower all three concaves at once to the auger bed for service or unplugging the rotor.
- Works on all Case IH combines.

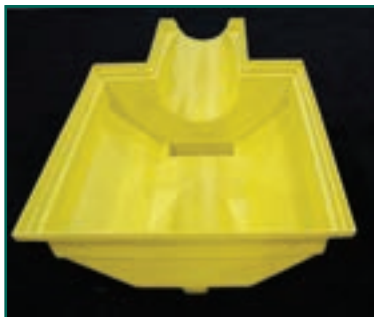

ROTO-SHEAR

- Ultimate vertical crop cutter
- Low maintenance, directly driven by hydraulic rotor
- Installed either on left or right side without internal changes
- Adaptable to all combine and swather headers
- High speed cutting action – enhances blade life
- No moving parts except rotor

RETRACTABLE POLY FINGERS & GUIDES

- Replaces original metal combine fingers.
- Poly fingers flex to reduce combine auger damage from broken fingers.

MEGA BOOT

Designed to fit today's larger augers 10" plus, the Mega Boot is a great tool to help eliminate spills and shovelling. Use it under your hopper bottom for loading your truck, and at the back of your end dump truck for loading bins. Mega Boot stands 22" high x 40" wide x 39" long.

MULTI-PURPOSE GRAIN AUGER BOOT

- 22" high & can be cut to 16"
- Uses tube instead of strap for support
- Slide-on lid
- Little Boot fast clean up of grain in bins

Global Markets.....Local Service

Unbelievably powerful, BIG MIKE Industrial Vacuums are designed to handle materials in both factory and farm environments. The BIG MIKE line of vacuums was originally developed to prevent cross contamination and infestation in grain storage facilities. Fine dusts, granules, gravel or big lumps are all devoured enthusiastically by the BIG MIKE. Operators will appreciate its power, big diameter hose, long reach and large storage capacity. Even after the most serious abuse, the BIG MIKE will continue to perform where others would have given up.

ROCKYFORD STEEL

BINS & ACCESSORIES

NEVER SPILL SPOUT FULL BIN ALARMS

- Never climb another ladder!
- Never plug another auger!
 - Never shear another pin!
 - Never overfill a bin again!
- Easy to install on 8" - 13" and new 16" augers!

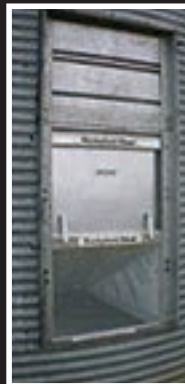

REMOTE LID OPENER

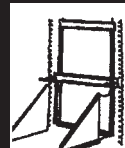

External Hardware for Smaller Openings.

GRAIN BIN DOOR CONVERSIONS

Tie bar bolts on with wing bolts.

Chute sides pin up and in.

Chute top sits on chute side rails and tie bar.

Top panel hooks on top rail.

EASY ACCESS NO WRENCH

- Retro fits to any make of bin
- Door can be disassembled without removing auger
- Easily accommodates an 8" auger

HYDRAULIC CENTRE UNLOAD SYSTEM

The convenience of a hopper bottom or grain vacuum at a fraction of the price.

CIRCLE KING

- SIMPLE • PORTABLE
- ECONOMICAL

*Easy to install and move from bin to bin,
the tube is the **only** permanent installation.*

ROCKYFORD STEEL

BINS & ACCESSORIES

NEW!

The convenience of a larger opening and a remote opener.

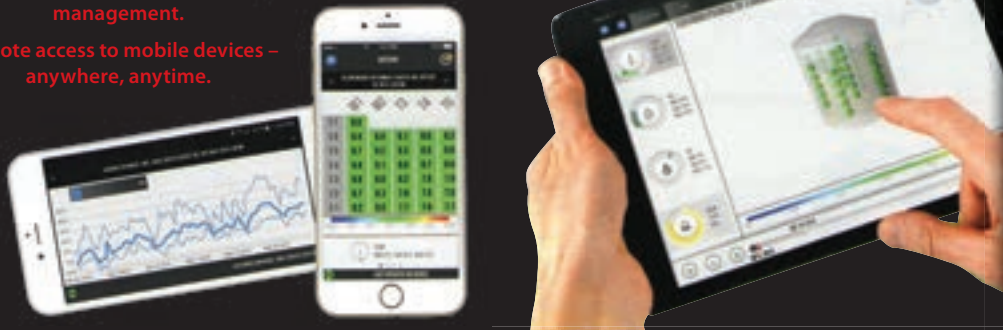

Convert from a 20"-22" opening to a 36" on all your 18'-19' grain bins.

The future of grain storage management.
Remote access to mobile devices – anywhere, anytime.

OPI BLUE MANAGEMENT FEATURES:

- Temperature
- Moisture
- Easy to service
- Peace of mind
- Grain inventory levels
- Easy to install and configure
- Easy to use
- Wireless

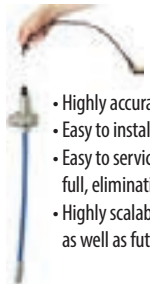

STORMAX HANDHELD GRAIN TEMPERATURE MONITORING

STORMAX DIGITAL MONITOR

- One plug-in per bin/bin-group
- Displays 32 sensors per screen
- Graphical display
- Stores 1* years of historic data
- Reads other kinds of cables
- Easy upgrades for future technology
- Optional PC upload

STORMAX TEMPERATURE CABLE

- Highly accurate to within 1°F
- Easy to install and serviceable by the customer
- Easy to service whether the bin is empty or full, eliminating any downtime
- Highly scalable to work with your current system, as well as future upgrades as your needs change

ALL SIZE FLOORING SYSTEMS – Featuring the **SYNTIRO** Support

**PATENT
PENDING**

Whether you have 10 feet or up to 100 feet of grain, ALL SIZE can support whatever you throw on them. If it's size and strength you want, the "TRUSS" floor system is for you. Made from G90 galvanized metal, the "TRUSS" system gives you superior strength with minimal aeration loss. The "TRUSS" is able to withstand up to 100 feet of grain. With strength like that, the "TRUSS" floor is a must for bins over 30 feet high, and can be an option for smaller bins for farmers who want a stronger floor.

The "**Syntiro**" support system is the strongest on the market. Complementing our truss floor design. A must for any grain bin height of 44 ft or over, up to 100 ft. Its easy installation, reduces labor time in set up and adds **superior strength** over any other supports. The "**Syntiro**" support are also designed to give you better under floor air flow for natural drying or when heat is added to the fan where the air can circulate.

Snap-Lock
Supports are
also available in
6 inch, 10 inch
and 13 inch and
custom lengths.

The new 20" ALL SIZE ribbed flashing is spliced for smaller diameter bins and non spliced for larger diameter bins. The perforated ribs allow consistent airflow as well as superior strength when a bin sweep is used. Our "T" track flashing bridges the gap between your ALL SIZE floor and any flat surface like auger cleanouts, tunnels and pits.

ALL SIZE DENTED LOUVRE DUCT SYSTEM

DENTED LOUVRE DUCT SYSTEM

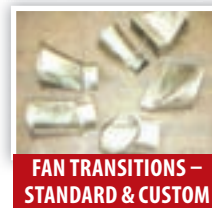

Regardless of where you store your grain – flat bottoms or hoppers bins, quonsets, machinery storage buildings, in a crop circle or in a pile on the ground there's an All Size dented louvre duct system that will aerate your grain effectively and efficiently.

All Size duct systems are adaptable, set up fast, are easy to remove as you haul your grain out and they stack into a compact space for storage.

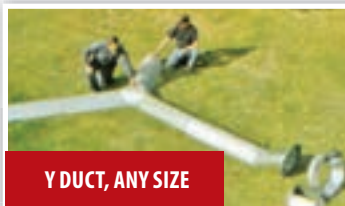

Available with custom openings from 1/64 inch to 7/64 inch to match your crop and air flow requirements. Duct systems available with 24 inch or 32 inch screen area. Truss style internal supports for columns of grain over 20 feet. Tested with 40 feet of grain. All Size also manufactures standard and custom transitions.

**ANY NUMBER OF
CROSSES, ANY SIZE**

**FAN TRANSITIONS –

THE AIRSEEDER HOPPER

*Makes loading your AIRSEEDER
quick & easy*

FEATURES:

- No hydraulics ~ mounts where old hopper is.
- Light weight ~ 60-70 lbs.
- Mounts quick and easy on most airseeders.
- Trap door makes it easy to clean out hopper.
- Mounted wheel makes it easier to roll under semi trailer and airseeder, the wheel supports auger and hopper while filling.
- 1/2" x 1/2" small screen to screen fertilizer included.

DIMENSIONS:

- 34" W x 48" L x 12" H

1 Year Warranty ~ Patent #2,257,048

MAKE FULL USE OF THAT SEMI TRAILER

*The critical link between
semi and seeder
is a high capacity hopper.*

NEW LIFT KITS FOR CASE N.H. CARTS

BENEFITS OF THE AIRSEEDER HOPPER:

- No hydraulic hook-ups.
- Mounts where the old hopper was.
- Eliminates cracking of delicate crops, through extra transfer augers.
- Aids in the mixing of inoculants and seed treatment.
- Light weight plastic 12" in height with mounted wheel rolls from one position to another with ease.

AIR SEEDER HOPPER EXTENDER

- Adds 10" of Length
- 10" of Width
- 5" of Height

AVAILABILITY: - 7" - 8" - 10"

- John Deere • Flex-Coil • Case IH
- New Holland • Ezeon • Harmon
- New 10" on
- John Deere • Bougault • Morris
- Seed Hawk • Haur's Anderson

GrainBoss 13 & GrainBoss 16 Grain Bag Extractors

300 bushels per minute with GrainBoss16 and 200 bushels per minute with GrainBoss13

360° ROTATING AUGER

- Patented unloading auger eliminates need to move truck to even out loads.
- Hydraulically powered drive gives operator precise control.

PULL THROUGH ROLLERS

- Patented narrow pull through roller design keeps GrainBoss inside track of bag.
- Rollers drop bag eliminating need to stop production to empty bag rollers.
- Eliminate extensive snow removal.

HIGH MOISTURE BOTTOM

- Available as an option it is able to break up high moisture bagged commodity.
- Great for breaking up grain that has frozen or compacted due to excess moisture.
- Safely store high moisture corn as feed.

STEERABLE WHEELS

- Patent-pending steerable axles allow user to align machine to the bag.
- Eliminates the need to unhook the bag to realign extractor with the bag.

FEED AUGER SYSTEM

- Primary auger breaks up bagged commodity.
- Patented enclosed cross auger system feeds auger to maximum capacity.

DIRECT DRIVE WHEELS

- Hydraulically driven patent-pending direct gear drive works in combination with bag roller to pull the GrainBoss through the bag.
- GrainBoss will work through mud or tears in the bag.

**Double the capacity
half the price!**

See how a GrainBoss can load an entire semi load in under 10 minutes

KRAMBLE INDUSTRIES INC.

WIRELESS RADIO CONTROLS

Swing Auger Mover / Belt Mover

- 300 ft range remote control
 - Manual and remote swing/winch controls
 - Up to EIGHT transmitters can control one unit
 - Adjustable spring charged ride height
 - 12V DC electrical system
 - No need to start tractor
 - Dual wheel drive
 - Auger sizes 10", 12", 13", 14", 16"
- Options: remote control winch, remote control lighting system

Trailer Chute Opener

- 300 ft range remote control
- Heavy duty cabling and trailer connectors
- Accurate internal limit counting
- Powerful planetary gearbox 12V drive
- Centralized radio control reception
- Weather-tight and guarded receiver
- Ease of installation
- PTFE self aligning bearings
- Stainless steel chain
- Quick release manual mode

Full Bin Alarm

- 12V DC FM receiver
- LED alarm lights
- Audible alarm - 95 dB
- Magnetic back receiver
- Universal fit

Endgate & Hoist

- 300 ft range remote control
 - 12V DC electric system
 - 600 lb force
 - Integrated with multi-channel system: One control box can control up to FOUR different functions
- Options: air, hydraulic or electric hoist

Auger Electric Mover

- Powerful electric drive
 - Over 300 ft-lb to each wheel
 - Goes over obstacles
 - Holds auger securely in position
- No need to start motor
- No messy hydraulics
- Works great in cold weather
- 300 ft range remote control
- Move your auger from where you can see the bin hatch

Multi Channel System

- Up to EIGHT different functions on one transmitter
- Various options available:
 - Endgate
 - Hoist
 - Tarp
 - Auxiliary lights
 - Auger
 - Chutes

MAGNETIC CAMERA PACKAGE

- *The simple solution to direct your grain auger or conveyor into the bin (now you can see exactly where the auger spout is, in relation to the bin opening)*
- Specially designed with very powerful magnets (260 pound) to adhere to grain auger tubes, combine augers, conveyors, etc., etc. Waterproof camera with night visibility up to 32'. Comes with 7" colour LCD monitor.

WIRELESS MAGNETIC LIGHT

**NEW
PRODUCT**

- Place the magnetic LED Light on the swing auger tube wherever it's convenient for you.
- When driving up to unload, turn the light on with the remote and place your swing auger where you need it - all from the comfort of your truck.
- This light features automatic shut down if you forget to turn it off.

WE ACCEPT CREDIT CARDS: VISA & MASTERCARD; CASH OR CHEQUE

FULL-BIN SUPER SENSOR

Equip your auger to sense when the bin is full. Powered by the tractor or auger battery. The sensor and light are encased in a durable weather-proof sealed housing. Easily top up your bin with this sensor.

NEVER CLIMB A BIN AGAIN!
OPTIONAL AUDIBLE ALARM

Easily shipped in 9x9x9" box • Weighs 12-lbs. The Full-Bin Super Sensor lets you know precisely when your bin is full. Fits any size auger or conveyor easily installed in less than 1 hr.

1000'S OF UNITS SOLD IN CANADA, USA, AUSTRALIA, NEW ZEALAND & UNITED KINGDOM

**2 YEAR
WARRANTY**

THE HOPPER DROPPER

This device mounts magnetically to the bottom of your hopper bin allowing you to open the chute wide open with no chance of spills. Reduces splitting peas and canola blowing away in the wind.

Hydra-Steer Mover

- * Single Castor Wheel with Steering Cylinder allows sharp turning with ease.
- * HD Double Chain-Driven Wheels provide superior traction in-Snow and Mud.
- * Easy-to-operate, Ergonomic Control Panel stays at the same height at all times.
- * Variable Speed Control allows operator to move Auger at a safe speed.

MAXIMUM REACH AUGER MOVERS

Available for
Meridian/Sakundiak
Augers

Authorized Dealer
MERIDIAN

Bin Sweeps
7" • 8" • 9"

- * Can be easily moved from one bin to another.
- * Expandable: extensions available to fit any bin.
- * Light weight, easy to handle: comes in easy-to-connect sections.
- * Variable speed controls and safety valve.
- * Guaranteed not to climb the pile.
- * Fold down handles.

Slit Fit Auger Intake

- * Downsize your Auger Intake to get into your bins with EASE!
- * Enables a 10" Auger to fit where an 8" will.
- * Remove safety screen to allow auger to enter bin, replace when using Sweep.
- * Easily replacable Bushing
- * Built-in Hydra Sweep Mount Receiver

No-Spill Hopper

- * Catch all the grain with no over flow.
- * Durable, 1-Piece Polyethylene Plastic.
- * Light Weight, 1-Man Installation & Removal
- * Flexible Belting allows Hopper to navigate under Bin during placement.
- * Lower the adjustable foot to support end of auger.
- * Easy clean out by rotating on hitch bushing.

Why Not Pick Up All Your Crop?

The McKay Swing Lock Attachment

- Designed exclusively for peas, lentils and beans
- Has proven to work on all cereal crops
- Works well on both rigid and flex headers
- Leaves stubble 1" series 150 or 2" series 225
- US Patent #7.520.119 Canadian Patent Pending

With this swing lock feature, the crop lifter is secured with a hood and a double spring steel tab that swings around a nut. The nut is designed to stay on permanently so a lifter can be easily installed and removed without the use of tools.

PART # SLO1 & SLO2

- Design and field tested to fit on most cutting platforms
- Install or remove a set in minutes
- Works well for all grain crops

PART # SLO1H & SLO2H

- Originally designed to work in fields with mole hills
- Keeps the cutting platform higher off the ground.

PART # CLO1S225 & CLO2S225

- Bolt on version of the best selling lifter on the market
- The CLO1S and CLO2S have been manufactured for customers that do not have a need to remove
- Designed to fit most OEM Headers.

PART # CLO1

- Our most economical lifter which bolts on to the cutting platform
- This universal design fits on most OEM headers.

PUT MORE IN THE GROUND. GET MORE PROFIT OUT OF IT.

MORE THAN JUST A BLOCKAGE MONITOR.

Intelligent Ag monitoring solutions watch your entire air seeder for potential trouble. In addition to showing a blocked run, our wireless blockage and flow monitor finds open or leaking cart lids, product bridging in the bin, meter roll buildup, a leaking or blocked primary, a leaking or blocked manifold and blocked openers. There's no better way to get more seed in the ground.

BECAUSE YOU CAN _____
ONLY REAP
WHAT YOU SOW!

***Aggressively cut, size and
incorporate your heaviest residue
at 10 mph***

Landoll is changing the primary tillage game with the introduction of the HSL (High Speed Landoll). The HSL is engineered to handle high levels of residue in primary or secondary tillage operations while leaving a smooth finish, ideal for the next pass. Key benefits include:

The series starts with a 12' three-point hitch model and goes all the way up to 25', 30', 35' and 40' pull-type units.

- Blade angle and pitch optimize soil movement and residue incorporation
- 24" x 1/4" notched blades individually mounted in an overlapping pattern
- Cover hundreds of acres a day
- Ideal tool for both spring and fall applications
- Narrow 12' transport width on pull-type models up to 40' wide

The HSL is the ideal aggressive high-speed tool that's changing the way you manage residue. Contact your Landoll Dealer today to learn more about the HSL, or visit us online at www.Landoll.com

ALWAYS MOVING FORWARD™ with RITE WAY MFG

Rite Way continues to be a leader in efficient and reliable farm equipment.

We always strive to improve our existing products and introduce innovative new products that will make your work easier and your crops more productive.

F-Series Land Rollers

- ★ Unfold to field position by driving *FORWARD*™
- ★ Multi-section system maintains ideal pressure on hilly land
- ★ 42" diameter drum for optimal weight and surface contact

Jumbo Heavy Harrow

- ★ Maintains constant pressure while following contours of the field
- ★ Your best choice for managing heavy straw and trash

MAXI Rotary Harrows

- ★ Cut through trash to ensure seeds are planted into fertile soil
- ★ Adjust the tine angle on the go from your tractor cab
- ★ Eliminate weeds, dry wet spots, level mole hills, lumps and ridges

ONE-Till

- ★ High-speed disc pulled at 8-12 mph
- ★ Works at depth of 1" to 4" to mix in residue, level ruts and ridges or produce a firm, black seedbed ready for planting

Bale Cart and Grapple

- ★ Gather and accumulate up to 1,000 bales per day into semi load groups and load a semi in less than 10 minutes
- ★ Move and stack your bales or drop them individually for pasture feeding

Rock Pickers and Windrowers

- ★ Most popular and efficient rock removal equipment
- ★ Choose the small but mighty RR250ST or the large capacity RR900ST

Crush-Rite Crimper Roller

- ★ Crimp cover crops, weeds and tough stubble
- ★ Minimize or eliminate need for chemicals

FOR CASE AIM COMMAND & SHARP SHOOTER

**BUBBLE
JETS**

- Reduced Drift • Uniform Droplet Size for Improved Coverage
- We also have AIR BUBBLE JETS for conventional sprayers that do all of the above and more!**

ABJ AGRI PRODUCTS
www.abjagri.com

90% LESS DRIFT, LESS RUN OFF, SUPERIOR COVERAGE

The Air Bubble Jet consistently produces droplets that are 200-550 microns in size. Too big to drift - too small to run off.

Drift occurs when droplets are smaller than 200 microns. Standard sprayer nozzles drift because they produce droplets that are 50-300 micron in size with a large percentage under 200. With a droplet range of 200-550 microns, the Air Bubble Jet has 90% less drift than standard nozzles.

Run off occurs with big droplets - 600 microns and over. Depending on the manufacturer, other low drift nozzles produce droplets that range in size from 250-1000 microns. That is why run off can be a problem. With a droplet size of 200-550 microns; your chemical stays on the plant when applied with the Air Bubble Jet.

Bubble Jets have an operating pressure of 20-90 psi however the optimum pressure for drift control and coverage is 30-60 psi. Because of the uniform droplet size produced Bubble Jets can be used for herbicides, insecticides, fungicides on any crop that you would like as many droplets per square inch leaf coverage as possible without all the drift & run off of a conventional nozzle. How long do they last? On average 70,000 acres!

HyGrade Pull Type Graders

Model 1600RS

**12
MODELS
AVAILABLE!**

HyGrade PULL-TYPE GRADERS are designed to meet virtually any size of grader requirements. From ditching, roadbuilding and maintenance, levelling and feedlot work, to oilfield roads.

Working widths are 8', 10', 12', 14' and 16' models. Plus our uniquely designed REAR STEER MODELS are available in 8', 10', 12', 14' and 16' working widths offering unmatched versatility in a pull-type grader. 8' and 10' models can be pulled by 25 to 100 HP tractors. 10' HD, 12', 14' and 16' models require 100 to 400 HP tractors.

HYGRADE GRADERS ARE A QUICK AND ECONOMICAL WAY TO:

- Clean and maintain waterways
- Rebuild ponds • Build roads
- Dig irrigation ditches • Fill in washouts
- Level building sites • Clean feedlots
- Grade roads • Remove snow
- Grade section line/field roads
- Level field edges • Maintain orchards
- Build and maintain terraces
- Clean poultry barns
- And many other jobs with your farm tractor

Call for a
**CANADIAN or
U.S. DEALER**
nearest you.

Model 1400RS

- Rear steer models, available in 8', 10', 12', 14', 16' widths.
- Allows you to shift the blade up to 5' left or right of the tractor.
- Effective for cleaning feedlots, grading roads and maintaining ditches.

Model 1000RS

Model 1400RS shown
tilted and angled

Blade raises, lowers, angles 45° left/right and tilts 15° left/right. All hydraulically controlled from the tractor seat.

Model 1600RS
w/optional snowshoes

ALL MODELS FEATURE:

- Total hydraulic control from the tractor seat
- Blade angle hydraulic relief valve
- 45° angle, 15° tilt, lift and lower
- Weight box with concrete weight
- Box scraper ends are standard
- Excellent blade to ground clearance
- All cylinders and tips are included
- Dual hydraulic cylinders for blade angle on 10' HD, 12', 14' and 16' models

Take a solid step forward with our new *Wolverine Shredder*!

We are now the proud manufacturer of the **new *Wolverine Bale Shredder*!** Our Wolverine Shredder's uniquely (to be patented) design and heavy duty construction provides strength and versatility that is new to the agriculture market, allowing for better reliability and efficiency, as well as cost savings.

The Wolverine Shredder:

- is the heaviest shredder that we know of, on the market today
- handles both round and square bales
- hauls either two round or three square bales at a time
- easily shreds frozen or partially frozen, moisture laden bales

Along with these features we've designed the shredder with excellent operator (cab) visibility. We invite you to come and see our tough and sturdy machine that is built to blast!

DYNAMIC
Ditchers Inc.

Ditches, Terraces & Waterways made easy with the **Wolverine Extreme!**

The **Wolverine Extreme Ditcher** scrapes & spreads the soil in a single operation, creating and maintaining ditches, waterways & terraces faster and more efficiently than other equipment.

The Wolverine Extreme:

- eliminates the operation of leveling dirt piles left behind by a scraper
- creates smooth ditches that allow field equipment to pass through with ease (no ridges or barrel cuts)
- reduces field compaction compared to using other equipment
- works in all soil types including heavy clay soils (not soils with rocks)
- moves up to 750 yards per hour

With patented features that puts it in a class of its own. The Wolverine Extreme delivers outstanding quality, durability and performance that will blow you away!

DYNAMIC
Ditchers Inc.

Eagle Ditcher

**ANY TIME IS THE BEST TIME
TO GET YOUR DITCHING DONE WITH AN
"EAGLE DITCHER"**

Muddy Conditions

**"It makes you feel good when you see the water
running off your fields after a heavy rain, and
YOU WON'T LOSE YOUR CROPS."**

- Eagle Ditcher throws dirt out the rear to the left and to the right side – not on tractor or operator.
- The Eagle Ditcher is the most efficient way to ditch, build and maintain ditches and terraces with one piece of equipment.

- Pulls lighter than any other machine.
- When the left dirt directional door is open, it diverts the dirt to the left. When door is closed it diverts dirt out to the right.
- The dirt deflector door controls the distance your soil will be thrown. It can be thrown anywhere from 1 foot to 150 feet away from the ditch or terrace.
- 48" width that lifts and drops dirt on the fan - so there's no need to beat the dirt out of the ground
- 48" wide, new flat cutting edge cuts, lifts and drops the soil onto the spinner. Wings may be added for an extra 12" wide cut and a cleaner edge to the ditch.
- Can cut from 1-12" deep and can cut 2-5" at speeds of two to four miles per hour.
- Wings help move the dirt away from the channel, so there's no ridge to hold back the water you are draining.

The Eagle Ditcher will save your crops from drowning in those wet areas and eliminate those problem areas altogether. With the Eagle Ditcher, you will be able to cut your ditches while water is still standing and not have to wait for the areas to dry up.

MOVING AGRICULTURE

Ideal for high speed tractors, our new line of ROAD FLEX running gear use suspension blocks to help eliminate bumps and vibrations when traveling down the road or through the field. ROAD FLEX Suspension not only reduces the stress from towing heavy loads but also provides increased stability to Horst wagons. In addition, ROAD FLEX Suspension provides independent four wheel suspension which eliminates the need for rocking bolsters.

Available on the Contour Cross Country and select four wheel models.

FORAGE HARVESTER STONE DETECTION SYSTEM

Fits many makes and models of self-propelled and pull-type forage harvesters. Patented and proven Inertia Sensor senses sudden displacement of front upper feedroll. In-cab sensitivity adjustment enables operator to adjust for varying crop conditions and feedroll speeds. A stone detection will cause the feed drive to stop instantly just like a metal detection.

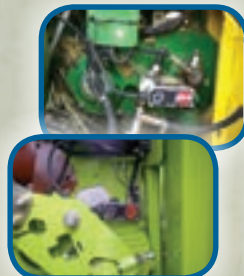

SENSOR

Durable cast aluminum, moisture resistant sealing, strong universal mount, mounts externally in minutes, adjust sensitivity in seconds, small and light weight.

CONTROL MODULE

- Easily mounts in-cab
- Sensor status indicator
- Audible/visual detection indicator
- In-cab sensitivity dial

(Typical sensor installations)

STONE DETECTION

Retrieve detected stone from feed area similar to metal detection.

Can be adapted to fit most forager models.

Designed and Manufactured in Canada.

Fits John Deere, New Holland, Claas, Krone, plus many others.

PRECISION FARMING

Accurate Weighing of Seeding & Harvest

Watch video of a B-Train weighing in 90 seconds! www.massload.com/freefarmscale

Includes Canadian Made High Visibility Display

- Visible in excess of 250ft in direct sunlight or foul weather
- Large easy-to-read 6 digit LED display
- Printer displays each axle group & total
- Wireless and Remote display options available

Remote situation?
Easy with our solar powered option.

Option Type	Max Size Vehicle Capacity
7' x 30" x 6" - 60,000Lbs	Single/Dual Axle
12' x 30" X 6" - 80,000Lbs	Standard Tri-Axle
14' x 30" x 6" - 80,000Lbs	Super B-Train

THE ORIGINAL MASSLOAD FREE FARM SCALE™

- ✓ Always know your inventory—measure incoming & pre-check outgoing loads
- ✓ A cost effective alternative to weighbridges
- ✓ Safe weighing with non-skid decking
- ✓ Easy to mount with 6" low profile platform
- ✓ Rugged 26" Super Duty load cells
- ✓ Heavy duty structural steel construction makes it virtually indestructible
- ✓ Quality powder coated finish
- ✓ US/European Steel Only
- ✓ Accurate to 0.5% of a Full length "Legal for Trade" weighbridge
- ✓ Fully Automatic—doesn't require an additional operator
- ✓ Load Cells & Decks – fabrication/assembly in SK, Canada
- ✓ Lease as low as \$305/Month

GRAIN END DUMP

Available in 24' to 32' lengths with tandem axles and up to 36' with triple axles. Side walls from 60" to 66". Dumping angle of approximately 48 degrees lets you haul and unload all commodities including silage and beets. Available with 3 piece endgate, combination endgate or beet/silage endgate.

LOAD LINE BODIES

Engineered for strength, service and value. Farmers love our standard 3 piece endgate the best. It provides full width loading and unloading without having to remove any of the pieces. A mesh type beet/silage endgate, as well as a new combination grain/beet endgate, are also available. Snag free, both open over 1' higher than the box. Chain or air operated. Combination gate will fit most other bodies.

PONY PUP – Very versatile. Doubles your payload on the highway. During harvest spot pup in field or tow with truck or tractor. No need to uncouple when dumping truck into auger.

FACTORY DIRECT – Buy factory direct and save. We also do frame and drive shaft extensions, installation and painting.

TRUCK SALES – Please call. We have a good selection of safety certified trucks.

The Right Choice for Every Job.

Why choose STEINBAUER

- + Up to 25% increase in power and torque*
- + Up to 10% reduction in diesel consumption*
- + Simple installation
- + Does not re-flash engine ECM
- + Does not leave footprints on ECM
- + No change in rail pressure

Spring will soon be here and a lot of tractors will be pulling heavy this year. Now is the time to find out why **STEINBAUER** is ranked # 1 with Farmers when it comes to engine tuning. Over the last 8 years more than 8000 farmers in Western Canada have purchased our modules and seen first hand the efficiency advantage of this European technology. Our guarantee is simple, you will harvest more crop in a shorter time using less fuel or your money back !!

* Engines must be at 75% or greater load to achieve results

DEF-B-GONE!!

Are you tired of the amount of DEF fluid you are using? We have the solution, a simple plug and play module that eliminates the usage of DEF fluid on your AG equipment.

Our module does not turn off or delete the DEF system but rather de-activates the dosing nozzle leaving all ECU settings in 100% factory condition and is a simple 30 minute installation. Units can also be transferred between equipment within the same Tier level. Uninstall the module and you are back to stock or you can move to the combine, sprayer, tractor, etc. No ECU footprint, No change in performance, No transporting containers.

DEF-B-GONE!!

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. These products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from these products can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for these products. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready 2 Xtend™ soybeans contain genes that confer tolerance to glyphosate and dicamba. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate, and those containing dicamba will kill crops that are not tolerant to dicamba. Contact your Monsanto dealer or call the Monsanto technical support line at 1-800-667-4944 for recommended Roundup Ready® Xtend Crop System weed control programs. Genuity®, Roundup Ready 2 Xtend™, Roundup Ready 2 Yield® and Roundup Ready® are trademarks of Monsanto Technology LLC, Monsanto Canada Inc. licensee. ©2016 Monsanto Canada Inc.

Genes that fit *your* farm:

AAC Brandon

Canada Western Red Spring

- ✓ **5% higher yield** than AC® Carberry
- ✓ **short, strong straw** similar to AC® Carberry
- ✓ **moderately resistant to FHB** ("Good" rating)
- ✓ slightly earlier maturity than AC® Carberry
- ✓ high test weight
- ✓ resistant to leaf rust, stem rust, stripe rust and smut

Developed by Agriculture & Agri-Food Canada, Swift Current

AAC Redwater

Canada Western Red Spring

- ✓ **early maturity** – five days earlier than AC® Carberry
- ✓ **short, strong straw**
- ✓ **good grade retention**
- ✓ very good sprouting resistance
- ✓ resistant to leaf rust, stem rust and stripe rust
- ✓ intermediate resistance to FHB ("Fair" rating)

Developed by Agriculture & Agri-Food Canada, Winnipeg

AC® Shaw VB

Canada Western Red Spring

- ✓ one of the **highest yielding CWRS** varieties ever registered
- ✓ **highest level in midge tolerance** – best available!
- ✓ awnless
- ✓ tall but **strong straw**
- ✓ excellent pre-harvest sprouting tolerance
- ✓ large seed and high test weight

Developed by Agriculture & Agri-Food Canada, Winnipeg

CDC Bradwell

Canada Western Red Spring

- ✓ replacement for CDC Go
- ✓ **short, strong straw**
- ✓ intermediate resistance to FHB ("Fair" rating)
- ✓ resistant to leaf rust, stem rust, loose smut and bunt
- ✓ **reduced wheat midge damage from "egg laying deterrence"**

Developed by Crop Development Centre, University of Saskatchewan

NEW

AAC Jatharia VB

Canada Western Red Spring

- ✓ **midge tolerant replacement** for AC® Unity VB
- ✓ top yield, similar to AC® Unity VB
- ✓ good lodging resistance, stronger straw than AC® Unity VB
- ✓ intermediate resistance to FHB ("Fair" rating)
- ✓ **good sprouting tolerance**

Developed by Agriculture & Agri-Food Canada, Brandon

NEW

AAC Foray VB

Canada Prairie Spring Red

- ✓ **highest yielding CPS** in Coop registration trials
- ✓ yield **119% of 5700PR, 118% of AC® Carberry**
- ✓ straw strength intermediate = 5701PR
- ✓ 7 cm taller than 5700PR
- ✓ 1 day earlier maturing than 5700PR

Developed by Agriculture & Agri-Food Canada, Winnipeg

800-665-7333 secan.com**NEW**

AAC Penhold

Canada Prairie Spring Red

- ✓ the strongest straw available!
- ✓ finally, AC Foremost replacement!
- ✓ yield 106% of 5700PR
- ✓ heavy test weight and large seed size
- ✓ medium maturity (two days earlier than 5700PR)
- ✓ moderately resistant to FHB

Developed by Agriculture & Agri-Food Canada, Swift Current

CDC Haymaker

Forage Oat

- ✓ replacement for CDC Baler forage oat
- ✓ 7% higher forage yield than CDC Baler
- ✓ tall stature with late maturity
- ✓ large, plump kernels, good forage quality with improved digestibility

Developed by Crop Development Centre, University of Saskatchewan

NEW

AAC Spitfire

Durum Wheat

- ✓ AC® Strongfield replacement
- ✓ yield 110% of AC® Strongfield
- ✓ stronger straw than AC® Strongfield
- ✓ 2 cm shorter than AC® Strongfield
- ✓ maturity similar to AC® Strongfield
- ✓ AC® Strongfield parentage

Developed by Agriculture & Agri-Food Canada, Swift Current

NEW

AAC Marchwell VB

Durum Wheat

- ✓ western Canada's first midge tolerant durum
- ✓ yield 104% of AC® Strongfield
- ✓ maturity, lodging and height similar to AC® Strongfield
- ✓ high protein (higher than AC® Strongfield)
- ✓ high pigment content

Developed by Agriculture & Agri-Food Canada, Swift Current

CDC Glas

Flax

- ✓ 5% higher yield than CDC Bethune
- ✓ stronger straw than CDC Bethune
- ✓ maturity and height similar to CDC Bethune
- ✓ smaller seed size than CDC Bethune
- ✓ well-adapted to the black soil zones

Developed by Crop Development Centre, University of Saskatchewan

CDC Maverick

2-Row Feed/Forage Barley

- ✓ a smooth awned partner to CDC Cowboy
- ✓ smooth awn for improved palatability
- ✓ tall plant type with top forage/silage yield
- ✓ suited for dry areas or low input production
- ✓ moderately resistant to FHB ("Good" rating)
- ✓ medium maturity, similar to AC Metcalfe

Developed by Crop Development Centre, University of Saskatchewan

AMERICA

aluminum spray booms

The original and still the best.

LIGHTER. WIDER.
STRONGER.

engineered for:

- Apache
- Case IH
- GVM
- John Deere
- New Holland
- RoGator
- SpraCoupe
- *retrofit your sprayer*
- available up to 166' width

distributed exclusively
in North America by

Gaber.com
Distributors
800.463.8748

ADVANCED! AUTOMATIC BOOM HEIGHT CONTROL EASY TO USE!

FOR NEW OR USED PULL TYPE OR SELF-PROPELLED SPRAYERS

FEATURES:

CHOOSE FROM THREE OPERATING MODES: • Bare Ground • Partial Canopy • Full Canopy

ISOBUS COMPATIBLE OPTION: Less cab clutter. Easier menu system

SMART SELF-CALIBRATION. Automatically adjusts to the sprayers' hydraulic performance

LONG RANGE SENSORS: Choose from 2-5 sensor systems • Fits ALL sprayers with electric-over-hydraulic controls • Few components, works with existing valves - DIY install!

**Durable, Compact
Stainless Steel Housing;
Sealed Weatherproof Sensor**

WORK FASTER, SAFER & SAVE:

- Save the operator; much less fatigue & stress
- Save time in the field; work faster
- Save the booms; reduce impact with ground & crop
- Save chemical; reduce drift and spray on target

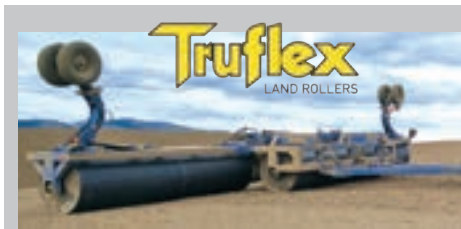

**COMPLETE SYSTEMS FROM JUST
\$4,890.00!**

**ORDER EARLY & SAVE UP TO 10%
COST EFFECTIVE, VALUE ADDED**

"BUILT for the NEEDS of TODAY'S FARMER"

Crop Dividers

... with a difference

PROVEN

- 15 Years on the Market.
- Rugged, Lightweight, NEW Adjustable Pitch Cones. Our Fast Attach Pocket mount enables a single operator to install in minutes.
- Obstruction free Pocket Mounts are concealed behind the cone to avoid additional contact with crop, maximizing performance.
- Spring loaded pivoting Nose Cone trips over obstacles such as wash outs, lodged materials, and road crossings.
- Sleek and attractive Polyethylene Nose Cone design that compliments sprayer.

PRACTICAL

- Easily lifts out of the way for trailer loading.
- Bolt on mounting brackets allow easy installation.
- Pivoting divider arm with minimal moving parts allows adjustment for different crop conditions.
- Solid front tip with flared back sides ensure a clean path through your thickest crops without sacrificing performance or damaging your tires or sprayer.
- The rubber bumper return cushions the nose cone from impact after being tripped.

PROFITABLE

- The divider base has a round bottom radius that is field friendly to reduce damage to plant stalks.
- Front and rear dividers minimize crop trampling and yield loss up to 90%.
- Our lightweight rugged design ensures durability for years to come.
- Most cost effective Crop Dividers in the industry for price, maintenance, and replacement.
- SAVE BIG with a set of E-Kay Crop Dividers.

"We have 3 Case IH 4430 series sprayers and our customers love the fact that we run the E-Kay Crop Dividers on front and back tires. The wheel damage couldn't be minimized better. Truly a great asset to our custom spray business."

Dennis Bulani

ECOB[®]BRAN

**The Only Environmentally Responsible Method of
Grasshopper
Control**

- ✓ ECO BRAN is an effective alternative to handling pesticides. It's odorless, dust free and can be applied by anyone.
- ✓ Achieve control with only 2% of the chemical used in liquid. A polymer coating protects bran from moisture and ECO BRAN attracts grasshoppers up to 50ft away.
- ✓ Instar grasshoppers achieve mortality on 1/4 of a flake. Adult grasshoppers only need to consume 3 or 4 flakes. Effective on all crop pest hoppers.
- ✓ No risk to livestock, bees or other pollinators.
- ✓ Used as directed, it is the lowest cost grasshopper control on the market today.
- ✓ Recommended by Environment Canada and the USDA for use in sensitive areas (near burrowing owls and gardens).

*Odorless, Economical Grasshopper Management in
Cropland, Field borders, Forage Grasses,
Headlands, Rangelands, Roadsides and Wastelands*

Sized for your requirements available.

The 20 kg (44lb) bag with cover
12-44 acres depending on your
application rate. 1 bag can kill up to
5.5 tons of grasshoppers. 1 lb can kill up to 250 lbs of grasshoppers.

Model 62 Ground Applicator

- 50' boomless swath
- Truck mounted - Straps onto a truck box in a minute
- Easy to use and ideal as a rental unit
- Costs only pennies per acre to operate
- Dependable Honda engine
- In-cab feed control
- Also broadcasts grass seed
- **Model 20 ATV mount is also**

Box 750, Hague, SK S0K 1X0

"Leaders in Environmentally Responsible Agriculture"

TRIDEKON®

CROPSAVERS

CROP DIVIDERS

Cropsavers make a difference! The proof is in the photos. The photo without Cropsavers on the left shows the sprayer tire driving along your trampled crop. The photo in the middle and right side with the Cropsaver has divided the crop around the wheel and the tire is running directly on the ground.

Reduce Trampling By Up To 90%

Save \$6 - \$15 per acre, Cropsavers® reduce trampling by 80 to 90 percent when spraying. Cropsavers pay for themselves in the first 1,000 acres of use. Save flagleaf damage when spraying fungicides or herbicides. Less volunteer grain the following year in sprayer tracks. Easier swathing, combining and tillage when grain is not trampled. Cropsavers can be used for both fungicide and pre-harvest desiccation in a variety of solid seeded and row seeded crops.

CROPSAVERS FEATURE

- Full height adjustment and floating parallel lift moves Cropsavers away from obstacles
- Stainless steel cones with enclosed back feature a slim dividing tip
- Deflector arms keep crop away from sides of the tire
- Zero maintenance with greaseless pins
- Cropsavers are fully adjustable horizontally and vertically
- Easy installation with model specific bolt on kits
- Optional airlift available to raise and lower cones.

CONES/OPTIONS ALL INTERCHANGEABLE DEPENDING ON TIRE SIZE AND MACHINE TYPE

**16" Standard
Narrow**

**19" Standard
Wide**

Short
For machines with clearance issues

Chopped
For machines with clearance issues

Bean Tip
Divides closer to the ground

Deflector Extension Shield
For enhanced crop protection

Hydraulic Jack option
for faster and safer tire
changes.

Quick attach for
easier, quicker and safer
handling.

Widening kit option to
add an extra 3" of width
to your cone.

Outer quick attach cover
protects crops when spray-
ing without Cropsavers.

Air compressor to add to
air kit for machines with
no on-board air system

ATTENTION CANADIAN CUSTOMERS **BUY OR SELL WITH US!**

Take advantage of the diversified U.S. marketplace

- We hold three regularly scheduled equipment & truck auctions in nearby Grand Forks, ND each year, in addition to numerous on-farm single seller events annually
- Major auctions offer simulcast online bidding and most units move easily across the border
- We have qualified experience in handling large Canadian equipment packages
- We have enjoyed many strong relationships with Canadian buyers and sellers alike and welcome your future business

A large graphic for the 40th anniversary of the Canada's Farm Progress Show. It features a large '40' with a red maple leaf inside the zero, a globe with wheat stalks, and a green banner at the top right that says 'CELEBRATING 40 YEARS OF SUCCESS'. The background is a blue sky with white grid lines and a yellow field at the bottom.

CELEBRATING 40 YEARS OF SUCCESS

1978-2017

CANADA'S FARM PROGRESS SHOW

Presented By

Canada's largest trade show for dryland farming and direct seeding technology

Premier sales activation event for qualified buyers

40th show celebrations will include new events and attractions making it the only place to see it all!

**SEE Technology TOUCH Innovation
BE Empowered**

Decisions are made in the field at Western Canada's only outdoor farm expo!

Join us at the third annual Ag in Motion - July 18-20, 2017. It's a unique opportunity to get up close and personal with today's agricultural technology. Experience live demonstrations of field equipment, crops, livestock and services all together on 320 acres just 15 minutes north-west of Saskatoon.

Ag in Motion™
Western Canada's Outdoor Farm Expo

™ Denotes a trade-mark of Canada's Outdoor Shows Limited Partnership.

Don't miss this show! July 18, 19, 20 2017 www.aginmotion.ca

We do farm auctions **right.**

In 2016, we conducted 106 on-the-farm auctions that included equipment, livestock and real estate.

With 58 years of experience, we are prepared with the proper staff, equipment and network to conduct your auction. Be confident in our ability to provide a full solution that will generate the best returns possible.

No matter where or when the auction takes place we can bring the service and buyers to your farm. Experience the benefits of Ritchie Bros.—

- Local service, global market reach
- Experience & expertise
- Flexible contract options including cash guarantees
- Unparalleled marketing
- Full service auctions
- More bidders from more places equals better returns
- The best of both worlds: on-site & online
- Certainty of sale & peace of mind

Call us for a free no obligation assessment today or check auction results on our web site.
