OCTOBER 2017

Fall Female Buyers Guide

WESTERN CANADA'S FALL FEMALE SOURCE

OLE FARMS

With over 2000 mother cows exposed in 2017, we at Ole Farms raise trouble free cattle. In order to be profitable we believe that a cow must be able to: feed herself on forages for as many days as possible with minimal mechanical intervention, rebreed each summer and wean a calf every year.

Our cattle must be deep bodied, easy fleshing and have solid feet. This enables them to hold condition and breed without being pampered.

Purebred Angus females both bred heifers and bred cows

Selling the complete winter calving herd
Females bred to industry leading sires • 65 head sell by private treaty.
