

CANADA'S CUSTOM

Feedlot Guide

SEPTEMBER 2013

SPECIAL PULL-OUT SECTION

Canadian THE BEEF MAGAZINE
Cattlemen

ZUPREVO™
(tildipirosin)
You're in control

BLOCK OUT BRD WITH A SINGLE SHOT

VACCINATE AGAINST
BACTERIA AND VIRUSES.

Set the stage for healthy lungs.

Provide cattle with the broadest coverage available against the most common and costly respiratory diseases with **VISTA™ Once SQ**, the only single-shot vaccine that combines both:

- an avirulent-live *Mannheimia haemolytica* and *Pasteurella multocida* culture, and
- five modified-live viruses.

Talk to your veterinarian about one-of-a-kind **VISTA Once SQ** combination vaccine.

**THE MOST COMPLETE
SINGLE-SHOT VACCINE
AGAINST BOTH BACTERIAL AND
VIRAL RESPIRATORY PATHOGENS**

Vista™ Once SQ

KNOCK OUT BRD

AT THE FIRST SIGNS OF INFECTION

ACT FAST.
HELP GET CATTLE
BACK ON FEED QUICKLY.

When BRD strikes, time is of the essence. Help minimize potential losses with a single injection of **RESFLOR®**, the only 2-in-1 treatment product that combines:

- a fast-acting¹, broad-spectrum antibiotic to help manage pathogens associated with BRD infection, and
- a non-steroidal anti-inflammatory (NSAID) to help reduce fever

...for visible recovery within 6 hours.¹

**THE FASTEST-GROWING PRODUCT
IN CANADA FOR THE
TREATMENT OF BRD***

Ask your veterinarian about the unique dual action of **RESFLOR**.

1. Weingarten A, et al. The efficacy of Resflor®, a new therapeutic agent for the treatment of bovine respiratory disease, XXIV World Buiatrics Congress, 2006.

ADD SAFE-GUARD™ ADD POUNDS

safe-guard™

Safe-Guard™ (*fenbendazole*) is a different class of dewormer than pour-ons and injectables. It works fast to stop internal parasites and the hidden damage they cause. These parasites suppress feed intake, reduce average daily gain, hurt nutrient absorption and immune function, reducing the health and performance of your cattle.^{1,2}

Use **Safe-Guard** as part of your parasite control program for more pounds of high quality beef in the feedlot.^{3,4}

Visit www.AddSafe-Guard.com for more information or contact your veterinarian.

¹Endoparasite control, L.R. Ballweber, Veterinary Clinics Food Animal, 2006, 22:451-461. ²Economic analysis of pharmaceutical technologies in modern beef production, J.D. Lawrence and M.A. Ibarburu, Iowa State University, 2007. ³Pasture deworming and (or) subsequent feedlot deworming with fenbendazole. Effects of grazing performance, feedlot performance and carcass traits of yearling steers, R. Smith, et al., The Bovine Practitioner, 2000, 34:104-114. ⁴A fenbendazole oral drench in addition to an ivermectin pour-on reduces parasite burden and improves feedlot and carcass performance of finishing heifers compared with endectocides alone, C.D. Reinhardt, J.P. Hutcheson and W.T. Nichols, Journal of Animal Science, 2006, 84:2243-2250.
